STUMP & ROOT GRINDERS & TILLERS

INNOVATION

- > over 70 years experience,
- mulching equipment specialists since 1971
- > continuous research for new solutions and technologies
- > optimal material

QUALITY

- > every machine is tested before leaving the factory
- > use of the best components only
- > low wear

RELIABILITY

- > excellent working machines
- > easy maintenance
- > fast and efficient after sales service

Typical use

- > in agriculture and forestry they will grind and mulch stumps and roots of felled material and till the soil
- > in greenspace maintenance they will remove stumps from parks and road sides
- > in construction and energy they will eliminate stumps and roots from construction sites

How to work with the stump and root grinders of the series KASTOR and FC?

KASTOR Working principle: standing machine. The hood can be lifted and lowered, in order to reach deep stumps. The rear hood also manages the way the mulched material is distributed.

KASTOR Depth of work up to 50 cm [20"].

The series of stump and root grinders by SEPPI M.

	tractor	excavator
grinds stumps any diameter and at depth	KASTOR	MIDI-KASTOR hyd, KASTOR hyd
grinds stumps and roots, and tills the soil continuously	FC, STAR-FC	STAR-FC hyd

The information and images contained in the present documentation are to be considered reference values SEPPI M. may carry out even substantail changes without previous notification.

It's so easy to eliminate stumps and roots!

The stump grinders made by SEPPI M. are strong and efficient machines. Wood and other vegetation will be tilled, ground finely and incorporated into the soil, where it will quickly decompose. The soil will be ready to plant or for other uses.

Operating

Stump and root tillers are operated by - tractor PTO shaft

- excavators, arm mounted

These machines have been developed for particularly high performances. Even hard tasks can be accomplished in a short time. Enjoy the many advantages of these machines!

s and roots of felled material and till the soil parks and road sides roots from construction sites

Working principle: tills the soil continuously, prepares land for new plantations. The STAR-FC crushes stones up to 15 cm Ø.

FC Depth of work up to 30 cm [12"].

KASTOR :: KASTOR HYD :: MIDI-KASTOR HYD

The beaver among the SEPPI machines: Grind your stumps with great power!

Features	KASTOR	KASTOR hyd	MIDI-KASTOR hyd
grinds stumps	as deep as 35 cm [14"] and any diameter	as deep as 50 cm [20"] and any diameter	as deep as 30 cm [12"] and any diameter
rotor	fixed knifes with tungsten tips	fixed knifes with tungsten tips	fixed knifes with tungsten tips

STAR-FC

•

* The weight of the machine refers to standards, without any options, and may vary.

seppi me

Even with stones in the ground, the STAR-FC machines work perfectly. Use them for land reclamation, renewal of arable land, for the construction and maintenance of gravel roads and road sides or on construction sites. The hydraulic version (for excavators or skid steer loaders) allows easy work in hard to reach areas.

Mulching Equipment Pioneers

Founded in 1939 by Max Seppi, SEPPI M. is now one of the foremost manufacturer in its sector - not only in Europe, but worldwide. A pioneer like no other, SEPPI has been manufacturing mulching equipment for more than 40 years. SEPPI's mission is "To improve the professional's work through innovative and efficient solutions".

The many years of experience, together with the tireless research for more advanced technologies and more resistant materials result in the premium quality of the SEPPI equipment with tough machines that are reliable even under extreme working conditions.

The biggest gratification over the past 75 years has been our satisfied customers, who have benefitted from long and efficient work with the SEPPI equipment – a continuous motivation to keep on focusing on high quality! The family-based character of the company today being led by the third generation, stands for fair and responsible business relationships.

Discover the many advantages of owning SEPPI equipment!
