

**NAARVA****K25**

# A felling head for forwarders, 5-8 ton excavators and truck loader cranes

## Features

- Excellent loading properties
- Efficient guillotine cutting, 25cm
- Easy installation, no additional hydraulics or hosing
- Radio control option

## Suitable for

- Felling of single trees
- Clearing of bushes and roadsides
- Removal of problem trees
- Loading

## Effortless felling and loading

Naarva K25 is easy to install for example in the place of forwarders own loading grapple and to be used for felling, collecting, cutting and loading of trees, bushes and branches. K25 is also suitable for truck loader cranes for:

- Removing problem trees in urban areas and residential plots
- Removing hedges, old poles, and posts
- Shortening branches
- Cutting and lifting of trees fallen on power lines, roads, and buildings

<b>Production code</b>	<b>H25</b>
<b>Weight without a rotator</b>	300 kg
<b>Height in felling position</b>	90 cm
<b>Grapple opening</b>	90 cm
<b>Cutting diameter*, force and time**</b>	Max. cutting: Ø 25 cm 95 kN, 1,8 s
<b>Required hydraulic pressure</b>	170-200 bar
<b>Required oil flow</b>	40-90 l/min
<b>Warranty</b>	12 months or 1000 hours
<b>Control system</b>	Cable control with 3 buttons or radio control
<b>Voltage</b>	12V or 24V

All provided values are approximations. The manufacturer reserves the right to make changes in the products. 07/2016

\*The max. cutting diameter is approx. 30% lower for hard wood (such as oak and beech). \*\*With 90 l/min oil flow
